## Professional Summary

Junior Frontend Developer with the goal of becoming a Full Stack Developer in the near future, with experience in JavaScript (ES6+) and TypeScript, specializing in Vue.js and learning Nuxt and Pinia. Skilled in building responsive, scalable web applications with State Management, TailwindCSS and API Integration and testing using Postman.

### Technical skills

**Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS

**Frameworks & Libraries:** Vue.js, Vuex, TailwindCSS

**Tools & Workflow:** Git, Postman, Agile (Kanban)

**Other:** REST API, Responsive Design, UI/UX basics

### Soft skills

- Attention to detail
- Analytical thinking
- Quick learner
- Organization and autonomy
- Adaptability and resilience

## Professional experience

**Goldylocks** Apr 2024 – Present

Responsible for the frontend development and maintenance of a Point-of-Sale (POS) application using Vue.js, where I integrate and optimize UI components, dashboards, and forms for sales, and user management. I also test backend APIs with Postman to ensure accurate data flow and functionality, collaborating closely with the backend team to consume APIs for real-time updates on sales and transactions.
