

Clément Lopes

Software Developer | Vue.js · Nuxt · TypeScript · PHP · APIs · E-commerce · CI/CD
Braga, Portugal · labs.clement@gmail.com · clementlopes.site · github.com/clementlopes

Professional Summary

Software Developer with professional experience building and maintaining SaaS and Point of Sale (POS) applications using Vue.js, TypeScript and state management. Hands-on experience with REST APIs, PHP automation, WordPress/WooCommerce e-commerce, data synchronization and business-system integrations. Additional practical experience in self-hosted infrastructure, Docker, CI/CD, monitoring and networking.

Professional Experience

Goldyllocks - Frontend Developer | Apr 2024 – Dec 2025

- Developed and maintained frontend features for a SaaS POS application using Vue.js and Electron.
- Built responsive interfaces with focus on performance, accessibility and long-term maintainability.
- Collaborated with backend developers on REST API integration and testing using Postman.
- Supported POS and E-commerce solutions, including software installation, technical support and initial customer training.

Selected Projects

Marca Q Marca - E-commerce & Business System Integration WordPress · WooCommerce · PHP · REST API · CSV

- Maintained an e-commerce platform with approximately 21,000 products.
- Developed PHP automation consuming an external API, processing CSV product data, updating stock and importing new products nightly.
- Integrated WooCommerce orders with an external invoicing system, transmitting customer, address, product, pricing and VAT data.

Self-Hosted Infrastructure & CI/CD - Proxmox VE · LXC · Docker · Coolify · GitHub · Tailscale · Cloudflare Tunnel

- Built and maintained a self-hosted environment on Proxmox VE using LXC containers and Docker-based services.
- Used Coolify to deploy applications from GitHub repositories and configured Discord deployment notifications.
- Configured private access with Tailscale, controlled public exposure with NPMplus/Cloudflare Tunnel, and monitored services with Uptime Kuma.
- Hosted services including PocketBase, n8n, GitLab, Home Assistant, Immich, ESPHome, iVentoy and AdGuard Home.

Education

Degree – Engenharia Da Computação Gráfica e Multimédia - Instituto Politécnico De Viana Do Castelo

Technical Skills

Languages: JavaScript (ES6+), TypeScript, PHP, HTML5, CSS3, SQL

Frontend: Vue.js, Nuxt, Vuex, Pinia, Tailwind CSS, Bootstrap, Responsive Design, UI/UX, Accessibility

Backend & APIs: REST APIs, API Integration, Postman, PocketBase, BaaS, Webhooks, CSV Processing

E-commerce: WordPress, WooCommerce, Product Catalogue, Inventory, Orders, Invoicing Integration

Infrastructure: Docker, Proxmox VE, LXC, Coolify, GitLab, Portainer, Virtualmin, GitHub Actions

Networking & Monitoring: Tailscale, Cloudflare Tunnel, NPMplus, AdGuard Home, Uptime Kuma, n8n

Version Control: Git, GitHub, GitLab

Certifications

CCP - Certificate of Pedagogical Skills

CISCO - Introduction to Cybersecurity; Networking Basics; Networking Devices and Initial Configuration;
Endpoint Security
